

A GUIDE TO WORKING WITH US

# CLIENT GUIDE

## LET'S GET ORGANIZED

Intimidated by the clutter and chaos but not sure if you really need a professional organizer?

**This is for you.**

THE  
ORGANIZED  
YOU

WWW.THEORGANIZEDYOU.COM

# HELLO & WELCOME

Your home might be cluttered, but you are not less-than. Your space might be chaotic, but that doesn't mean something is wrong with you.

Life happens - and it is often messy.

From a playroom with "too many" toys to your overflowing closet...to that your walk-in pantry that looks nothing like those perfect photos you see on Instagram...

You know you want a well-organized home, and you know you don't have the time or patience to make it a reality. That's where we come into the storyline. Let us help you create the organized home you've always wanted.

*Heather Aiello*

# HOW IT WORKS

A well-organized space doesn't happen by accident. We are intentional about bringing order and calm to each project.

## LET'S MEET

Our first meeting is a consult, which can either be virtual or in person. We'll ask you questions and take a look at your space to get a good idea of what you need.

During this consult, we'll share our best options and recommendations for the next steps. If you are ready, we'll book the first onsite appointment at this time.

## LET'S SORT

Our team will dive into your project, sorting trash from treasure with your guidance, and organizing your items into custom categories.

From there, we will implement various organizers and labels.

Organizing by color, type, and frequency of use are just a few of the primary ways we'll bring order to your space.

## LET'S THRIVE

Once our work is complete, we won't leave you stranded. We will explain how to maintain the new systems we have created. You'll feel empowered and clear-headed.

If you need a organizational "refresh" in the future, our services are available to help maintain, enhance, or build upon your initial project.

# 4 ORGANIZING QUICK WINS

Gather and stack all loose papers

Remove all shoes from your entry

Add a bin to any cluttered space

Arrange necessities like with like
